Re: Freedom of Information Act Request EPA-R9-2015-008367

Dear Mr. Caparros:

This is in response to your Freedom of Information Act request for contact information for public water systems using gaseous chlorination for treatment. The information is from EPA's Safe Drinking Water Information System and is provided in the enclosed file.

The listing includes public water systems in EPA Region 9, including Navajo Nation and other tribal lands (Primacy Agency codes NN and 09), Arizona, California, Hawaii, Nevada, and the Pacific island territories of the Commonwealth of the Northern Marianas Islands, and Guam, with 300 or more service connections and using one of the two gaseous chlorine treatment processes (process codes 401 and 403). The listing is sorted, first, geographically by oversight agency (as a proxy for state) and, second, by water system ID number.

Should you need clarification on the contents of the listing, please contact Don Hodge, EPA Region 9 SDWIS database administrator, at 415-972-3240.

Sincerely,

A handwritten signature in blue ink, which appears to read "Nancy Woo", is positioned below the word "Sincerely,".

Nancy Woo, Director (acting)
Water Division
